

Cispus Workshop

Collaborative Resource Management

Get Inspired!

Natural resource issues are complex. Engaging partners in a collaborative process fosters strong relationships and lasting solutions.

For over 50 years the Cispus Workshop has provided an interactive learning environment that leverages field-based experience to help participants hone collaborative skills.

During the workshop, participants will learn techniques to effectively facilitate:

- **Groups**
- **Processes**
- **Information Sharing**

Delivered by experienced facilitators from natural resource agencies and cooperators.
